

# IMPACT

Power Technologies, LLC

When employee productivity depends on the efficiency of mobile devices, **IPT Productivity+ Series** batteries are your solution for longer run times and reliability, at competitive prices.

IPT batteries are manufactured using the highest quality cells, components, and safety circuitry. All batteries are checked for proper performance prior to shipping to ensure that your devices are up and running when you need them.

Our batteries are guaranteed to be free of defects in materials and workmanship and will maintain 80% of the rated capacity for 12 months.

## Keep your devices running longer with IPT Productivity+ Series

Batteries for your Motorola MC9060 | MC9090 | MC9190

IPT Productivity+ Series™ Advantage

IPTMC9000-Li vs. Motorola OEM Battery

BATTERY RUN TIME (minutes)

**IPT Productivity+ Series Batteries** provide a run time productivity advantage of 164 minutes or 50.3%.

### Productivity+ Series Specifications:

- **Model Number** IPTMC9000-Li
- **Chemistry** Lithium Ion
- **Capacity** 2600mAh
- **Operating Voltage:** 7.4 Volts

### Productivity+ Series Advantages:

- **Highest quality cells and components provide:**
  - Increased mobile workforce productivity
  - Reduced device downtime and associated costs by minimizing mid-shift battery failures
- **Most stringent quality control testing to guarantee performance when it's needed most**
- **Rugged construction for increased durability**
- **Industry leading 12 month warranty**

### IPTMC9000-Li

At Impact Power Technologies, we understand that your team depends on mobile devices to keep your business running. The IPT Productivity+ Series Batteries were designed with the end user in mind...performance, productivity, and reliability.
